Award

Mid American Arts Alliance and United States Information Agency
1995 -1996 International Fellowship and Residency Programme

*This award funded by a NEA grant consisted of a 30 day travelling program arranged by the USIA and then a 45 day residency at Austin Peay State University Art Department. Throughout this travel time I was hosted by many galleries like the Guggenheim, MOMA and also visited smaller installation galleries and artist studios. During my residency at Austin Peay, I worked on an installation around Freud's work *The Meaning of Dreams* -it was about 100 years since publication.*
